DOME TENT

£199.99 ★★★★★

Two-person tent

You like moving from place to place when you go camping, don't you? This dome tent pops up in seconds. They've made it **so that** it's very easy to put back down, too. It's also extremely light to carry, and we found it really comfortable to sleep in. Our only problem was that it nearly blew down in the wind.

SWISS ARMY KNIFE

£295 ★★★★★

The best Swiss army knife in the world!

This knife has got every kind of tool possible. I always take it with me **in case** I need it. You can use it **to** cut your nails, to open cans or to fix any machine that breaks. It weighs almost half a kilo, so it's quite heavy. But you won't need to carry other tools with you. The biggest disadvantage is the price. It's very expensive, so you might need to save first **in order to** afford it.
