

Unit 3: Ancient Rome

Let's show how much we know about ancient Rome!

1. Mark with an X the names of the seas in which the Mediterranean Sea is divided:

Ionian.

Tyrrhenian.

Adriatic.

Aegean.

2. Write T if the sentence is true and F if it is false:

The Mediterranean Sea was named "Mare Nostrum" by the Romans because it was a way to trade with other cultures.

Romans were conquered by the Etruscans.

Greeks and Etruscans were conquered by the Romans.

The Etruscans were allies with Greeks.

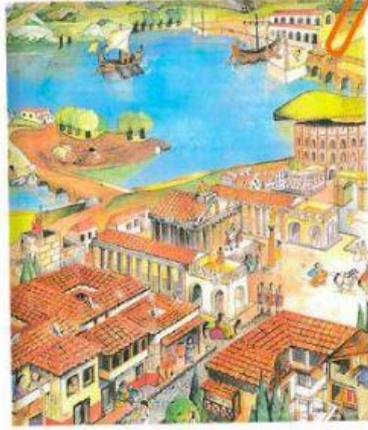

Romans called "Mare Nostrum" to the Mediterranean Sea because they conquered land in all its shores.

3. What was the relationship Ancient Romans had with the Mediterranean Sea?

4. Complete this card with the characteristics of Ancient Rome's territory.

The ancient Romans were located on the _____ Peninsula, a place where _____ is located today. Its terrain is characterized by being mostly _____ and its coasts are located along the _____ Sea.

5. Label the following map using the instructions below:

- Mark the location of Rome
- Mark the Tiber River.
- Write the names of the seas that surround the Italian Peninsula.
- Write the name of the Mediterranean Sea.
