

I Guess That's Why They Call It the Blues

Elton John

Don'tit away	blues
Don't look at it like it's forever	laughing
Between you and me I could honestly say	demons
Thatcan only get better And while I'm away	wish
Dust out theinside	long
And it won't bebefore you and me run	hide
To the place in our hearts where we	rolling
And I guess that's why they call it the	things
Time on my hands could be time spent with you	
.....like children, living like lovers	
.....like thunder under the covers	
And I guess that's why they call it the blues	
Just stare into...
