First, the rain shows the 1)\_\_\_\_\_ the person who drew the picture is under. The bigger the drops are or the more heavily the rain is falling, the 2)\_\_\_\_\_ the stress is. The clouds mean problems waiting to happen, so a big cloud shows the drawer is not very 3)\_\_\_\_\_ about the future.

Second, the umbrella means the 4)\_\_\_\_\_ the person has in a stressful situation. A 5)\_\_\_\_\_ umbrella shows that the drawer has a lot of plans or protection. If there's no umbrella in the drawing, the drawer does not have any means to 6) \_\_\_\_\_ difficult situations.

Third, the details in the drawing of the person have to do with the drawer's 7)\_\_\_\_\_ under stress. For example, someone who draws a person without a face does not want to draw people's 8)\_\_\_\_\_ to himself or herself. Someone who draws the person on the right side of the paper is ready to meet the 9)\_\_\_\_\_. On the other hand, someone who draws the person on the left side may be worried about things that have happened in the 10)\_\_\_\_\_.

These are some of the 11)\_\_\_\_\_ meanings of each part of the drawings. Now, go back and look at the two drawings. Try reading them yourself. Can you understand what kind of person drew each one? What's your opinion?
