

Watch the video. Sing the song.

1. Listen the song and choose the correct option.

Technology 

T-E-C-H-N-O-L-O-G-Y, technology!  
Technology! Technology!

CDs, DVDs and mobile phones. Technology!  
Computers and laptops in every home.  
Technology!

It's in your school, it's in your street.  
It's over your <sup>1</sup> head / arms, it's under  
your feet.  
Technology!

There's no doubt about it.  
We can't live without it. Technology!  
My <sup>2</sup> grandma / sister could live without it,  
But I can't live without it. Technology!

You <sup>3</sup> have to / don't have to be smart, all  
you boys and girls. Technology!

You have to be <sup>4</sup> smart / bored. It's a digital  
world. Technology!  
Everywhere you go, everything you see.  
It's all around you, it's all around <sup>5</sup> me / us.  
Technology!

T-E-C-H-N-O-L-O-G-Y, technology!  
T-E-C-H-N-O-L-O-G-Y, technology!  
Technology!
