

Science

Day and night

You will need:

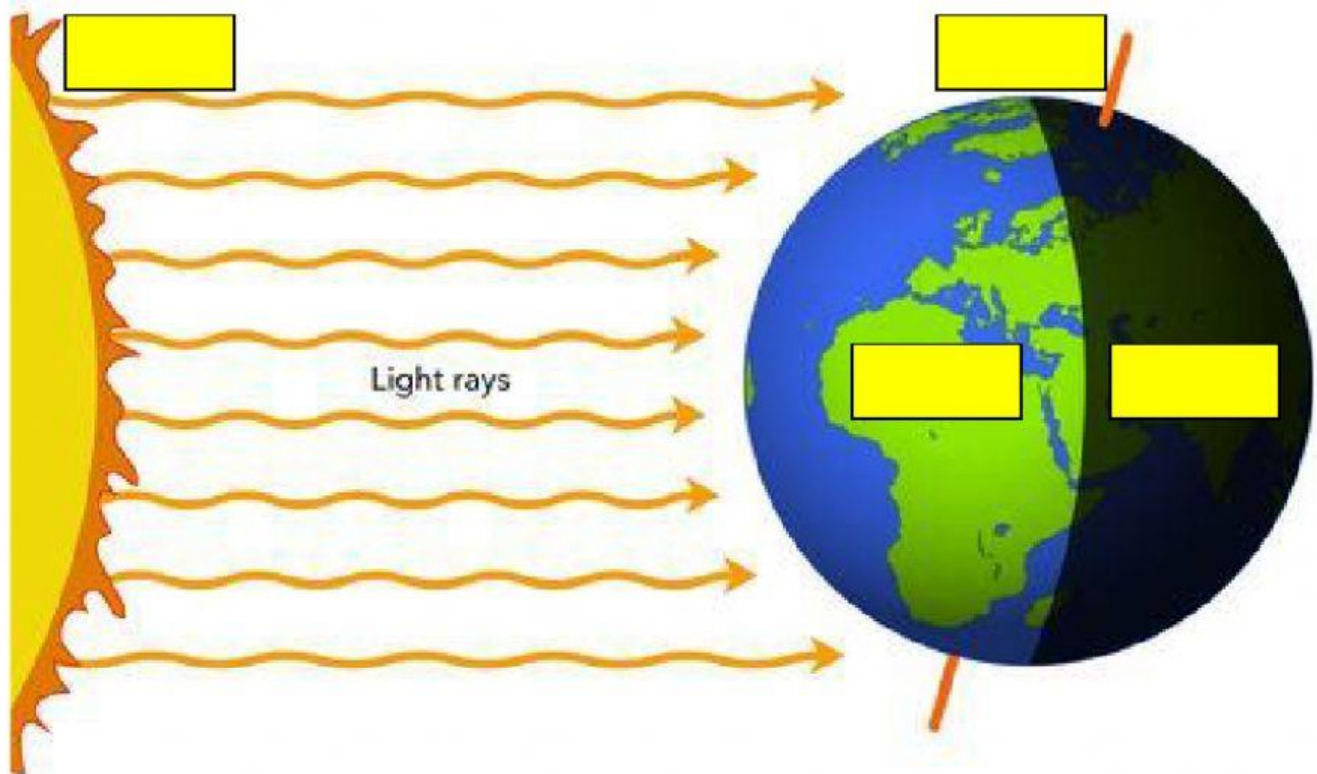

- A piece of string
- A balloon
- paper and pen
- scissors
- tape

Method :

1. Draw the shapes of the continents. Cut them out and tape them onto the balloon in the global positions.
2. Tie the balloon so it is freely hanging.
3. Shine a flashlight on to one side of the balloon.
4. Slowly turn the balloon.
5. Try holding the balloon to show these times, in South Africa.
 - Midnight
 - Sunrise
 - Midday
 - Sunset
