Camden Market

Camden Market, which is actually made up of several different markets, is a famous shopping area in London. The market started in 1974 when stallholders started selling arts and crafts in the area. Today, Camden Market is the busiest market in London, with over 100.000 visitors each weekend! The reason why it's more popular than other markets is because of its variety. It's a market whose stalls include everything from fresh fruit to vinyl records! There are other places where you can shop more comfortably in London, but nothing beats the Camden atmosphere! And remember: the shoppers who arrive the earliest always find the best bargains!
