

Math Worksheet

Week 3

Name: _____

Class: Grade 1

Date: 16/9/2020

Solve the following: -

1. Han has 5 comic books. He gives 3 comic books to his friend. How many comic books does Han have now?

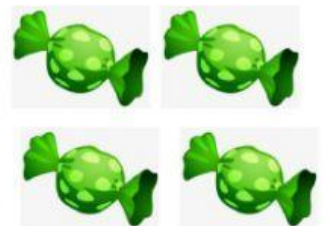

$$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

2. Leo had 8 color pencils. His sister has 4 color pencils. How many more pencils does Leo have than his sister?

$$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

3. Elias has 4 mints. He eats 2 mints. How many mints does Elias have now?

$$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

- 4.** Hatem sees 6 birds. Rami sees 3.
How many birds they see in all?

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

- 5.** Eman had 7 lollipops. She gives 2 away.
How many lollipops are left with Eman?

$$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

- 6.** Farida has 6 dresses. Areen has 4.
How many dresses do they have in all?

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$
