

Proper Nouns

Common nouns are people, places, things, and ideas. For example – barbers, forest, televisions, love.

Proper nouns are specific people, places, and things. For example – Bob, Michigan, and the Statue of Liberty. The important words in proper nouns are capitalized.

Type in a C (common nouns) or a P (proper nouns) depending on which type of nouns they are. I used small letters for all, even if they are supposed to be capitalized.

1. tree
