

Function Animal Cell

Cpis ELD Students

Directions: Match the meaning with the part of the cell. Write the letter next to the word.

	Mitochondria
	Peroxisome
	Rough Endoplasm
	Ribosome
	Vacuole
	Centrosome
	Microtubules
	Lysosome
	Cell Membrane
	Chromatin
	Nucleolus
	Nucleus
	Smooth Endoplasmic
	Golgi Apparatus
	Golgi Vesicle
	Cytoplasm

A	It's the RNA / Fix the cell
B	Digest the protein
C	Helps to fix the cell
D	Gives the cell life.
E	Protects the cell
F	Is the boss of the cell
G	Controle the microtubules
H	Stores food in its bubble
I	It is the cell's metabolysim
J	It's the cells DNA
K	Gives the cell its shape
L	Checks the protein quality
M	Checks the protein quality
N	Takes out toxin
O	Gives the cell water
P	Makes protein
