I. READING

Questions 1-5: Read the text about generation gaps and answer the questions that follow.

The generation gap refers to the differences between the young and the old and can lead to conflicts between the two. Generation gaps occur when two age groups have different views towards life. The old generation always wonders what has gone wrong with the new generation. They feel that during their time, young boys and girls were better-behaved, more obedient and had more respect for elders. Young people, on the other hand, feel that they are able to learn on their own. They also don't need to rely on the older generation for advice.

We can solve generation gap issues through more discussion and interaction. Older people should admit to the ability of the young, whereas youngsters should express their opinions respectfully. Therefore, people from both age groups should realize that every individual has positive and negative characters, as well as some limitations.
