LES COULEURS SONT DES ADJECTIFS

Colors are adjectives. In French, adjectives can *change depending on the gender (masculin or feminin) of the noun they modify (describe) and if the noun is singular or plural.*

Fill in the chart below to show how colors change based on the noun they "modify". (White boxes = no change)

English	Masculin	M+Plural		Feminin	F + Plural
Black	NOIR				
Grey	GRIS				
Brown	MARRON				
Brown	BRUN				
Purple	VIOLET			*	*
Blue	BLEU				
Green	VERT				
Yellow	JAUNE				
Orange	ORANGE				
Red	ROUGE				
Pink	ROSE				
White	BLANC			*	*

*These colors are a bit different. BE CAREFUL!!!!

Note: Colors that share a name with a food or mineral DO NOT change. Which 2 colors above are examples of this?

Think about and be prepared to discuss in class:

- What do the colors that end in "e" have in common?
- Why do you think that "gris" does not change in the M/PL column?
- Which color pronunciations change after you add an "e"?
