READING

7. Read about Polly's bad experience at school and answer:

a) What problem has she had?

My name is Polly, and I'm a victim of bullying. My bullies are in my class at school. They've threatened me so often, I've felt scared to walk home alone. I don't know what I've done to upset them.

When it first started, they just ignored me. Then they started calling me names and telling lies about me online. When I finally told my parents, I was worried that they might not understand. But they were brilliant and spoke to my teachers the next day.

The school has talked to the bullies, and the teachers have spoken to their parents. They've been really fantastic. My friends know what has happened and they have been really kind. I still feel nervous some days. But things are finally getting better.

8. Read Polly's experience again and answer these questions:

a) Why didn't she talk to her parents immediately?

b) Who has helped Polly?
