A) Listen to a song and select the correct form of the verbs you hear. Also title the song the way you want it.

Title: _____

Baby, we used to drive in your car
What _____ to us?
Yeah, we didn't make it very far
I never _____ that we would end up like this
Until you _____ me your last kiss

We _____ on the floor all night
I _____ in love with you as the seconds went by
Can you tell me just what _____ your mind?

'Cause you were obsessed with me like we _____ 17
And you _____ to keep your hands off me
But now look at us now
Somehow we drowned

I just want you one more time
I just want you one more time
Won't you give me one last night?
With you, with you

It's been 3 months now, can we talk it out?
How you _____ me standing outside the front of your house
_____ you through the window crying on the stairs
I _____ you didn't care

I just wanna pull you close
But there's walls in-between
Can't we just go back to when we _____ 17?

(Chorus)

I lie awake and think how we used to be, we used to be
And you'd do all the little things that _____ me weak
They _____ me weak.

B) After listening to the song, answer the following questions. Skim through the lyrics of the song if you need to.

1. What is this song talking about?

2. What feelings do you imagine the author was feeling when she/he wrote the song?

3. If you were friends with the author of this song, what suggestion would you give her/him to get distracted and to feel happy again?
