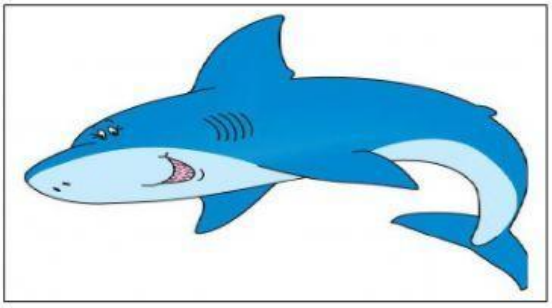
## Find the Main Idea

Find the main idea in the paragraph below. Write the main idea in your own words in the space provided. Then, research the name and details about 2 different types of sharks.



You probably know sharks have very sharp teeth, but did you know they never run out of them? If a shark loses a tooth, another moves forward from within the shark's jaw, where it keeps a nearly unlimited supply of replacement teeth. This way, it's almost impossible for a shark to end up without a full set of teeth. This is a phenomenon unique to the shark. No other animal in the world has teeth quite like the shark's. A shark can go through as many as 20,000 teeth in its lifetime!

### Main idea

_____

**Details**

**1.**_____

**Details**

**2.** _____

**Research 2 different types of shark:**

First shark: Name_____

Details:

1._____

2._____

Second shark: Name_____

Details:

1._____

2._____
