

# ELIEL BILINGUAL INSTITUTE

## SCIENCE WORKSHOP

### SECOND GRADE

Objective: To know how to describe the ways of making materials or objects change.

In the boxes draw a tick for yes or a cross for no.

| Can you...                                                                                         | Stretch it? | Bend it? | Squash it? | Twist it? |
|----------------------------------------------------------------------------------------------------|-------------|----------|------------|-----------|
| <br>Plasticine    |             |          |            |           |
| <br>Bluetack      |             |          |            |           |
| <br>Stones      |             |          |            |           |
| <br>Sponge ball |             |          |            |           |
| <br>Pencil      |             |          |            |           |
| <br>Rubber band |             |          |            |           |
