

CLASS: VII

TERM: I

SUB: MATHEMATICS

UNIT-1: Integers

TOPIC: Subtraction of Integers

Name:

Fill in the blanks: Find the missing numbers.

1. If $b - (-46) = 63$, then the value of b is
2. If $b - (-39) = (-29)$, then the value of b is
3. If $b - (43) = (-102)$, then the value of b is
4. If $(-36) - b = 73$, then the value of b is
5. If $b - (-12) = (-33)$, then the value of b is
6. If $28 - b = (-41)$, then the value of b is
7. If $b - (-13) = 83$, then the value of b is
8. If $b - (-62) = (-92)$, then the value of b is
9. If $b - (-35) = (-105)$, then the value of b is
10. If $32 - b = 9$, then the value of b is
