Fill in the blanks: Find the missing numbers.

1. If $3c = -3$, then the value of c is

2. If $40c = 40$, then the value of c is

3. If $15c = c$, then the value of c is

4. If $12c = 144$, then the value of c is

5. If $4c = 400$, then the value of c is

6. If $-13c = 169$, then the value of c is

7. If $-16c = -256$, then the value of c is

8. If $23c = 299$, then the value of c is

9. If $91c = -455$, then the value of c is

10. If $56c = -56$, then the value of c is
