The sun rose mightily amongst a soufflé of clouds. It was a crisp and cool morning at my Uncle Sam's farm. Today, I will be his farmhand as his actual farmhand is on a holiday and there was no one to assist him. Uncle Sam has many animals in his farm. He has cows, chickens, ducks and even cats. I heard his favorite cat Alice has given birth to a 1.\_\_\_\_\_ of kittens. I cannot wait to see their little paws and whiskers. However, I need to first help him milk the 2.\_\_\_\_\_ of cows. I toddled after him with heavy metal pails and watched him as he milked them. The cow shed was as smelly as a pair of dirty socks. I could not wait to get out of there. Luckily, the ordeal was over and Uncle Sam gave me a straw basket to collect eggs from the brood of chickens. This was another smelly task. The chickens cackled noisily like witches as I reached out to grab their eggs. Just then, a 3.\_\_\_\_\_ of geese ran past. "Why don't we eat eggs from a goose?" I asked Uncle Sam curiously. "Of course, we can eat them but they are a little stronger in taste. Did you know their shells make great art and craft projects?" Uncle Sam beamed. I did not know that but made a mental note to 'borrow' some eggs from the friendly geese later. Finally, it was time for

<b>school</b>

breakfast. Aunt May had whipped up a dish fit for the gods. Her signature

scrambled eggs with cheese is something not to be missed. Uncle Sam

decided to lay a mat near his pond and have breakfast while watching a

4. \_\_\_\_\_ of birds take a bath. It was a beautiful sight. We gave

the remaining pieces of bread to the 5. \_\_\_\_\_ of fish living in the

pond. They ravenously gobbled up every piece! Beyond Uncle Sam's farm,

there is a forest. "You must never go there! There is a hungry 5. \_\_\_\_\_

of wolves living there!" Uncle Sam warned. After the hearty meal, we headed

back to the house. On the way, we saw an 6. \_\_\_\_\_ of ants

marching up to the anthill. I was about to stomp them but was promptly

stopped. "We must never hurt little creatures. They are just like us. Ants work

very hard to feed their colony. We must respect them!" he advised.

Feeling bad, I gave a morsel of my cake to the ants. The ants gratefully

carried them away in the speed of light. I learned a lesson to respect all

creatures no matter their size. It was a wonderful day at the farm.
