

Tenths

Drag and drop the numbers into the correct place and then fill in the fraction

0.5 0.7 0.3 0.9 0.2 0.1

$$\frac{\quad}{10} = \square$$

$$\frac{\quad}{10} = \square$$

$$\frac{\quad}{10} = \square$$

$$\frac{\quad}{10} = \square$$

$$\frac{\quad}{10} = \square$$

$$\frac{\quad}{10} = \square$$

Hundredths

Drag and drop the numbers into the correct place and then fill in the fraction

0.07 0.82 0.02 0.92 0.24 0.09

$$\frac{\quad}{100} = \square$$

$$\frac{\quad}{100} = \square$$

$$\frac{\quad}{100} = \square$$

$$\frac{\quad}{100} = \square$$

$$\frac{\quad}{100} = \square$$

$$\frac{\quad}{100} = \square$$

Convert between these fractions and decimals

$$\frac{4}{10} = \square$$

$$\frac{\quad}{10} = 0.8$$

$$\frac{7}{100} = \square$$

$$\frac{\quad}{100} = 0.75$$
