

A) Read the text and say true(T) or false(F) for the sentences below.

I'm Julia Pattinson. I've got a big family and I live with them in Oxford, England. My father works with airplanes at the airport. He loves his job. Right now, he is flying a plane to New York! He always works from 8 a.m. to 5 p.m. My mother works in a hospital. She often feels tired, but she likes helping people. At home, we all help with housework. For example, at night mum cooks, I wash the dishes and my father walks the dog after that.

I've got two sisters. My older sister, Kelly, lives in France with my grandparents because she is studying at university. She is clever and she is really good at Math. She loves technology, too, so chats to friends online every night. Right now, she is downloading songs in her new smart phone! Susan, my second sister, is a teacher. She works in a secondary school, near my house. Susan is married. Her husband, Tom, works in a police station. He looks for and catches criminals all the time. His job is exhausting. He sometimes works at midnight, so it is very dangerous. They have got twins. Their names are Matias and Gabriel. They are 10 years old. They are really nice and they say they want to be in the space and walk on the moon. They want to visit the International Space station in Florida, USA, and talk to real astronauts. Haha... They are so funny!

Well, and then it's me, the little one! I'm in secondary school and I love music. My parents sometimes get angry because I don't do my homework, school is difficult! but I like playing the guitar and singing! I take selfies and talk on the phone with friends every day, that's interesting!

Every Sunday we have lunch in a restaurant with my sister and her family. And on holidays and long weekends, my sister Kelly visits us. I love my family.
