

Calcula pasando previamente a fracción:

$$a) 2, \hat{3} - 1,1\hat{3} \cdot 1,25 = \frac{\boxed{}}{\boxed{}} - \frac{\boxed{}}{\boxed{}} \cdot \frac{\boxed{}}{\boxed{}} = \frac{\boxed{}}{\boxed{}}$$

$$b) 0, \widehat{18} - 0,1\hat{3} : 0,4 = \frac{\boxed{}}{\boxed{}} - \frac{\boxed{}}{\boxed{}} : \frac{\boxed{}}{\boxed{}} = \frac{\boxed{}}{\boxed{}}$$
