

Calcula e **registra** nas etiquetas o valor de cada conjunto de moedas.

Troca, por moedas, o valor de cada moeda e da nota.

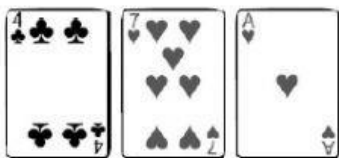

TRIO MAIS ALTO

- No jogo do Trio mais alto, cada jogador tira três cartas do baralho e ganha quem tiver a soma de pontos mais elevada. As figuras valem sempre 10 pontos.

Exemplos:

Gonçalo

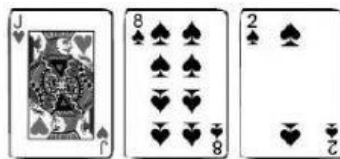

Pontos: $4 + 7 + 1 = 12$

Tiago

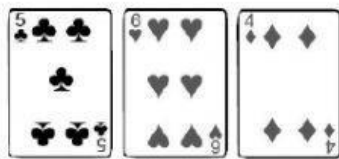

Pontos: $3 + 10 + 10 = 23$

Gonçalo

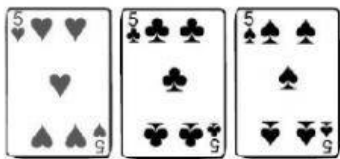

Pontos: ____ + ____ + ____ = ____

Tiago

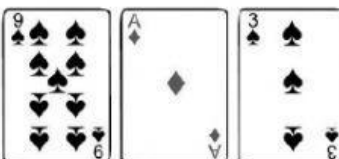

Pontos: ____ + ____ + ____ = ____

Gonçalo

Pontos: ____ + ____ + ____ = ____

Tiago

Pontos: ____ + ____ + ____ = ____

No total quem ganhou mais pontos o Tiago ou o Gonçalo?
