

Distribuciones gráficas

Halla el valor de la incógnita.

a. $\begin{array}{ccc} 2 & 5 & 3 \end{array}$

$2 + 3 = 5$

$\begin{array}{ccc} 7 & 8 & 1 \end{array}$

$\square + \square = \square$

$\begin{array}{ccc} 4 & x & 3 \end{array}$

$\square + \square = \square$

$\square = \square$

b. $\begin{array}{c} 13 \\ \swarrow \quad \searrow \\ 10 \quad 3 \end{array}$

$\square + \square = \square$

$\begin{array}{c} 12 \\ \swarrow \quad \searrow \\ 5 \quad 7 \end{array}$

$\square + \square = \square$

$\begin{array}{c} p \\ \swarrow \quad \searrow \\ 8 \quad 8 \end{array}$

$\square + \square = \square$

$\square = \square$

c. $\begin{array}{ccc} 25 & & 5 \\ & 30 & \end{array}$

$\square + \square = \square$

$\begin{array}{ccc} 17 & & 6 \\ & 23 & \end{array}$

$\square + \square = \square$

$\begin{array}{ccc} y & & 15 \\ & 30 & \end{array}$

$\square + \square = \square$

$\square = \square$

d. $\begin{array}{ccc} 3 & & 6 \\ 12 & & \\ & 21 & \end{array}$

$\square + \square + \square = \square$

$\begin{array}{ccc} 5 & & 8 \\ 6 & & \\ & 19 & \end{array}$

$\square + \square + \square = \square$

$\begin{array}{ccc} 7 & & 3 \\ 10 & & \\ & x & \end{array}$

$\square + \square + \square = \square$

$\square = \square$
