

Unit 10 - Multiplication
and Division

Grade -4

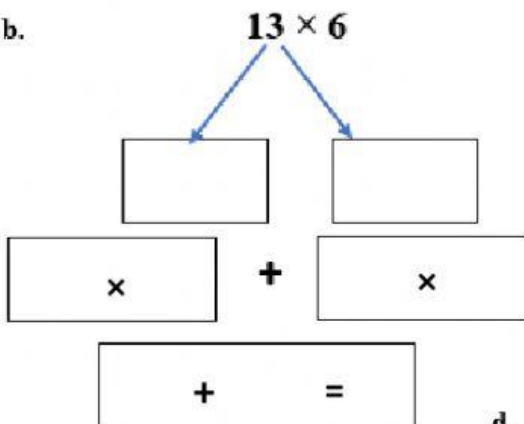

Lesson 5
Partitioning Method

Q 1. Use the partitioning method to work out these multiplications.

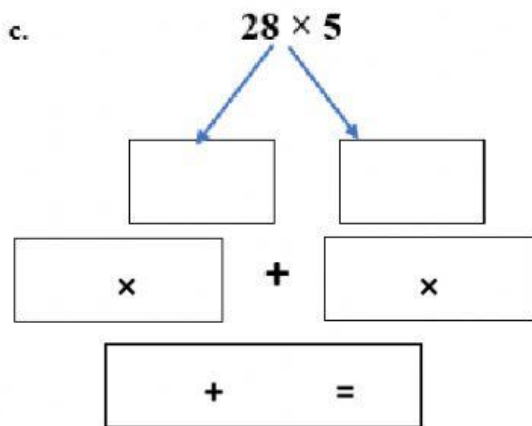

Example:

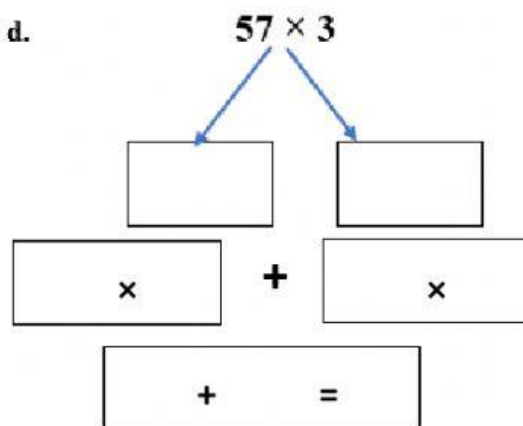

b.

c.

d.

Ch2 Q2. Before working out the answers to these calculations , round one of the number and estimate.

a.

49×6 Estimate=

×

×

+

b.

32×6 Estimate=

×

×

+

c.

19×7 Estimate=

×

×

+

d.

51×8 Estimate=

×
