

Counting Sheep

Counting sheep helps people fall asleep. See if you can do these maths sums and not fall asleep.

1. If there are 20 sheep how many legs are there?
2. If there are 24 legs how many sheep are there?
3. If there are 6 black sheep and 5 white sheep how many sheep are there altogether?
4. If there are 12 black sheep and 7 white sheep how many more black sheep are there?
5. If there are 20 sheep and 6 fall asleep how many are awake?
6. If it takes 20 minutes of counting sheep for Amos to fall asleep and he started counting sheep at 7:10pm what time did he fall asleep?
7. If Amos counts 1 sheep every 10 seconds how many sheep does he count in 1 minute?
8. How many sheep did he count in 20 minutes?
