they :

Comprehension :

Tomatoes are native to Mexico and Central America . The Aztecs grew them back in the 8th century . In the 16th century , Spanish explorers introduced tomatoes to Spain . In the 19th century , the British introduced tomatoes to the Middle East , and now Egypt and Turkey are among the world top tomato producers .

Answer (true) or (false) :

- The Spanish introduced tomatoes to Europe ()
- Tomatoes are not grown in the Middle East ()

Best Wishes
