Mathematics	10	6	Home Work

Steps in Grid Method:

1. Partitioning
2. Place the numbers in grid
3. Multiply
4. Add both numbers.

a. 25×4

	20	5
× 4	80	20

80 + 20 = 100

Ch1. Partition the numbers in the grid method.

d. 21×6

×		

+ =

Ch2. Q1. Use grid method to work out these multiplications.

c. 26×4

×		

+ =

d. 43×6

×		

+ =

Ch2 Q2. First round the numbers and estimate, and then use the grid method to calculate.

b. 39×3 Estimate =

×		

	+		=	
--	---	--	---	--

b. 39×3 Estimate =

×		

	+		=	
--	---	--	---	--

×		

c. 17×8

×		

--	--	--
