

Bob the Puppet

Bob is a **puppet**. He is a farmer. He is **wearing** a red and white shirt, a blue overall and a yellow hat. Bob loves science. He **likes** doing experiments. He is very curious. **Today**, Bob wants to investigate which objects sink and which float in water. He **needs** some materials: a leaf, a paper, an eraser, a coin, a stone, a spoon and a recipient with water inside. Now, Bob puts the objects inside the recipient with water. Wow, now Bob knows which objects float and which sink. Do you want to do the experiment? Let's do it.

Questions:

1. What is Bob?
2. What is Bob wearing?
3. What does Bob like doing?
4. What does Bob want to do today?
5. What materials did Bob need?
