- A. Russia consists of several continental zones. For example, in the north winters are long and harsh, in some places there is lots of snow fall and temperatures fall below -40 degrees Celsius. These winters are normal, not only in the northern regions of the country but even in the Far East. Summers in these areas don't even see three warm months out of the year.
- B. Choose the incredible New Year tours to cold Lapland, which are the perfect combination of comfort and adventure. They are ideal for those who may be new to husky sledding or winter holidays. You will enjoy the beauty of Lapland as you drive your own dog sled team through landscapes including huge mountains, mysterious forests, deserted tundra and frozen lakes.
- C. You may not know this, but Finland has a very interesting diversity of local dishes. Fish and meat are important ingredients in some areas, and oats, berries, and milk are common in other regions. An iconic Finnish dish that visitors should try, especially in the summer, is "grillimakkara", which are large grilled sausages eaten with mustard. They are delicious.
- D. The New Year is one of the most important holidays on the Russian calendar. New Year in Russia is a time for being together with family and friends, for gift giving, decorating the New Year tree, and watching and setting off fireworks. Midnight is, by tradition, marked by listening to the Russian Federation President's greeting and Kremlin bells chime.
- E. The Siberian Husky is a beautiful dog with a thick coat that comes in a multitude of colours and markings. Their blue or multi-coloured eyes add to the appeal of this breed, which originated in Siberia. It is easy to see why many people are enchanted by the Husky, but be aware that this athletic, intelligent dog can be independent and challenging for first-time dog owners.

Задание 19 (in class)

Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend.

You have 1.5 minutes to read the text silently, then be ready to read it out aloud.

You will not have more than 1.5 minutes to read it.

... You don't see many birds in winter. Most have left your area. Those that stay are not as active. Activity uses energy that is needed to keep warm. The worst problems for birds in winter are getting enough heat and holding on to the heat once it is made. These are problems for all birds. But it is especially true for very small ones. They cannot find enough food. The weather stays so cold for so long that they cannot eat enough to keep alive. But birds have many ways of fighting the cold.

You shiver to keep warm. The heat that you make is made mostly in your muscles. The muscles make more heat when they are active. So, one way of keeping warm is to move about, use your muscles. Another way is to shiver. When your body needs heat, the muscles tighten and loosen quickly. They become active. Just as you shiver to keep warm, so do birds.
