V. Open the brackets and complete the text with the appropriate form of the words:

Remembering words successfully is a chancy business, but over _____ last forty years psychologists _____ (to find) three methods which consistently improve this important language _____ skill. These are: creating a visual image for the word you want to remember; forming word associations; and recalling the word _____ means of a story. Research _____ attempts to remember lists of words has shown that _____ methods result in memory improvements of ten percent over simply reading words once. Now, new studies have shown solid evidence for a fourth method _____ can be added to the other three; it's surprisingly simply. It only needs saying the word you want to remember to yourself. It _____ to matter if you don't say the word aloud. It only _____ to be mouthed. Across eight experiments in which participants _____ (to be asked) to read and remember lists of words, researches found memory improvements sometimes in excess of ten percent.
