Insects and Spiders

A. Watch the video below on Insects and Spiders, then complete the Venn Diagram below.

B. Drag and drop each description into the correct section of the Venn diagram to show the differences between ***most*** insects and spiders. Use clues in red print to help you.

Exoskeleton	6 legs	Wings	Antennae
No antennae	8 legs	Invertebrate	8 eyes
2 body segments	Arthropod	2 compound eyes	3 body segments
		No wings
