

Sustainability

Let's watch a video about sustainability

Sustainability Explained

According to the video there are three pillars to sustainability. Complete this chart by dragging the different elements composing the pillars.

Environmental	Economic	Social

Protection of resources and biodiversity Better education Climate protection
Business and industry Fighting poverty Food grown organically
Using natural resources more sparingly Green power
Transporting goods from far waway places Stopping the use of pesticides equal rights

The following strip shows Mafalda in a forest in the south of Argentina.

Mafalda mentions U-Thant. U-Thant was the Secretary-General of the UN in the 1960's. Watch the following [video](#).

Who is the Secretary-General of the United Nations these days?

What does he say about sustainability?
