

Charting Oxidation Numbers

Complete the following chart using information from your notes and oxidation numbers and the Periodic Table.

Element	Atomic Number	Number of Protons (+)	Number of Electrons (-)	Number of Valence Electrons	Type of Ion Formed Positive(+) or Negative (-), +/- or None	Oxidation Number
Hydrogen	1	1	1	1	+	1+
Helium	2	2	2	2	None	0
Lithium						
Beryllium						
Boron						
Carbon						
Nitrogen						
Oxygen						
Fluorine						
Neon						
Sodium						
Magnesium						
Aluminum						
Silicon						
Phosphorus						
Sulfur						
Chlorine						
Argon						
Potassium						
Calcium
