<https://www.youtube.com/watch?v=z-R3D5hHbkA>

Write 5 sentences based on the previous video using zero conditional.

a) _____

b) _____

c) _____

d) _____

e) _____

4. Complete the sentences and put organize them correctly into the text.

- ➡ When the air _____ (come out) of the colored water blob, the water _____ (get) heavy again and _____ (sink).
- ➡ If you _____ (mix) oil and water, oil _____ (float) on the top.
- ➡ When it _____ (dissolve), it _____ (make) gas.
- ➡ When you _____ (add) the tablet it _____ (sink) to the bottom

How does it work?

Lava Lamp.

- a) _____ because it is less dense or lighter than water. The food coloring has the same density as the water so it sink through the oil and mixes with the water.
- b) _____ then starts to dissolve.
- c) _____, carbon dioxide. Gas or air, is lighter than water so it floats to the top. The air bubbles bring some colored water with them to the top.
- d) _____. It does this over and over again until the tablet is completely dissolved.
