

Guess My Word

The professor is playing Guess My Word with Wendy and William. The kids think the professor is amazing because when he looks at the words on one side of a card, he can easily guess the word on the other side. But like all the professor's magic, there's a trick to the feat. Use the professor's "tricks" to write a magic word on the back of each card.

Step 1: Read each pair of words below.

Step 2: The top word is a synonym for the professor's word.

Step 3: The bottom word is an antonym.

Step 4: Choose a word from the professor's word bank that relates to the word pair and then write the word in the space provided.
