

Name: _____

Missing Addends

Example: Aaron has 6 mangoes, but he wants 13. How many more mangoes does he need to get?

Step 1: Write $6 + \square = 13$

Step 2: Count on from 6 to 13, $6 + \boxed{7} = 13$

Complete the following:

a. $3 + \square = 5$	h. $17 + \square = 20$
b. $4 + \square = 7$	i. $13 + \square = 19$
c. $6 + \square = 9$	j. $8 + \square = 11$
d. $7 + \square = 11$	k. $9 + \square = 15$
e. $13 + \square = 17$	l. $7 + \square = 13$
f. $11 + \square = 20$	m. $9 + \square = 20$
g. $10 + \square = 15$	n. $11 + \square = 18$
