

Name: _____

Date: _____

Today is Monday. The winter season has begun in Fort McMurray. Tim O'hearn cannot go to school today because he got a terrible cold from all the weather changes. He has been sick for a week now and things have got worse. Now he must stay home all week.

On the weekend he went to the Pharmacy to get some cough drops and cough syrup. When he was walking in the parking lot he slipped on the ice and bruised his hip and sprained his ankle. He had to go to the doctor and the doctor advised him that he should keep ice on his ankle and elevate his leg. He should also relax in bed.

While he stayed in bed at home his parents caught the cold also. Now his parents are both taking 2 tylenol capsules every four hours after eating.

The O'hearns should be better next week when the ski season opens.

1. What season is it in Fort McMurray now? _____
2. Why can't Tim go to school? _____
