argentina_greenpeace Water pollution has harmful effects on the water we drink, causing health problems. This is why we mustn't throw garbage in the seas, lakes or rivers. We must throw it inside garbage bins.

argentina_greenpeace Littering is a common problem that contributes to land pollution. To reduce its negative effects on the environment, we mustn't throw garbage on the streets.

Argentina_greenpeace The emissions from vehicles are one of the main causes of air pollution. We **should** use public transports, ride a bike or walk more to reduce this type of pollution.

argentina_greenpeace Plastic pollution is a big problem for our environment. In order to reduce plastic pollution, we **should** use fabric reusable bags instead of plastic bags.
