

A diagram illustrating a home network setup. A central router (labeled 'c') is connected to a television, a computer, and a printer. A wireless access point is also connected to the router and is shown transmitting signals to a laptop and a PDA. The diagram includes labels for various components and their connections, such as 'Wireless Access Point', 'Router', 'Television', 'Computer', 'Printer', 'Laptop', and 'PDA'. The setup is shown in a 3D perspective view of a room with a yellow wall and a green floor.
