

## Missing Subtraction Values and Fact Families — Test

Find the missing numbers in the subtraction equations below. Once you find the missing number, you must check your answer by reversing the numbers.

1)  $8 - \underline{\quad} = 3$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

2)  $10 - \underline{\quad} = 7$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

3)  $17 - \underline{\quad} = 11$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

4)  $13 - \underline{\quad} = 5$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

5)  $20 - \underline{\quad} = 12$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

6)  $14 - \underline{\quad} = 10$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$
