## The Nature of God - Jesus' Miracles

What is a miracle? **A miracle is an extraordinary event that cannot be explained.**

Jesus performed miracles on earth such as: **controlling nature**, **multiplying food**, **healing the sick**, and **raising others and His self from the dead**!

**Controlling nature:** Jesus calmed a storm just by saying the words, "Be still". Jesus was able to control forces of nature such as wind and rain.

**Multiplying food:** Jesus fed 5000 people with just five loaves of bread and two fish. Jesus increased this small amount of food to so much more that it fed 5000 people!

**Healing the sick:** Jesus healed a man who was blind his whole life. Jesus made some mud with his spit. He put the mud on the man's eyes. Then he told the man, "Go and wash in the Pool of Siloam." So the man went to the pool. He washed and came back. And he was able to see!

**Raising the dead:** We know that Jesus rose from the dead to save our sins, but he also raised others from the dead as well. Jesus raised a man named Lazarus from the dead. He was dead for 4 days! Jesus shouted "Lazarus, come out!", and Lazarus came out of his tomb, perfectly alive.

**Instructions: Fill in the blanks to complete each sentence. Use your notes and what you have learned.**
