

What happens to Plastic when you throw it away?

First WATCH the video, then do the exercises!

Watch the video again and choose the correct words:

This is the story of three plastic bottles, empty and …….. Their journeys are about to …….. with outcomes that impact nothing less than the fate of the planet. But they weren't always this way. To understand where these bottles end up, we must first …….. The heroes of our story were conceived in this …….. The plastic in their body was formed by chemically bounding …….. molecules together to make monomers. In turn, these monomers were bonded into long polymer …….. to make plastic in the form of …….. Those were melted at manufacturing plants and reformed in moulds to create the resilient material that makes up the triplets' bodies. Machines filled the bottles with sweet bubbly liquid and they were then ……., shipped, ……., opened, …….. and unceremoniously discarded. And now here they lie, poised at the edge of the unknown.
