

6. The principle for protecting the environment from plastics O
 A) 2R B) 3R C) 4R D) 5R

7. Universal recycling symbol among the following is
 A)  B)  C)  D) 

8. This is not in 4R principle ()
 A) Reduce B) Reuse C) Recycle D) Reverse

5. Biodegradable material among the following is ()
 A) Milk packet B) Comb C) Pen D) Stick

6. This material takes many days for decomposition ()
 A) Paper B) Leaves C) Shampoo cover D) Food

7. This releases poisonous gases on burning ()
 A) Plastic covers B) Timber C) Leaves D) Grass

5. This material will not corrode in the atmosphere ()
 A) Iron B) Timber C) Food D) Plastic

6. Poor conductor of heat and electricity is ()
 A) Copper B) Plastic C) Iron D) All

7. Type of dresses firemen wear which do not catch fire ()
 A) Bakelite B) Nylon C) Polyester D) Melamine

7. This is fire resistance material ()
 A) Bakelite B) Melamine C) Polymer D) All.

8. This will be softened when heated ()
 A) Thermoplastic B) Thermosetting plastic
 C) Bakelite D) Melamine

9. Thermosetting plastics will _____ when heated. ()
 A) Soften B) Char or burn
 C) Change to liquid D) Change their shape.

6. This is a type of thermosetting plastic ()
 A) Polyethene B) PVC C) Bakelite D) All

7. The type of plastic used for making water packet is ()
 A) Thermosetting B) Thermoplastic C) Natural D) All

8. Pipes for electrical uses are ()
 A) Thermoplastic B) Thermosetting plastic C) Iron D) Cement
