- ... didn't they believe you? Because I was too young to know about tsunamis.

Be safe out there!

My friend James spent a week with me last summer. We were staying in the mountains, at my father's cabin near Valdivia. There was a big tremor in Valdivia the day we got there, and the news warned that there could be an earthquake.

"Carmen, I'm really bored," James said the next day.

"Let's go hiking up the mountain behind your house!"

I was telling James it was very dangerous because of the earthquake alert, when he picked up his backpack and left the house. So I followed him. The news specifically said that hiking during an earthquake was very dangerous.

While James was climbing up the mountain, we felt another tremor! It was a really big one, and some rocks were loosened because of it. James fell downhill and hurt his arm and head. I called my dad while checking if James was OK.

My dad was so mad! He drove us to the hospital, where they took care of James. I'm sure we both learned our lesson and will think twice before doing something this scary and irresponsible again! We both feel that we were really lucky because it was just a tremor and not an earthquake.
