TEXT 1

.....(1) high-technology industry was already present around (2) San Francisco. (3) Intel had been founded in 1968, and in (4) same year (5) first computer mouse was built at (6) Stamford University. In 1970, (7) Xerox opened (8) research center in (9) Palo Alto. There were also other electronics companies, like (10) Hewlett Packard, and (11) Fairchild, (12) world's first "semiconductor" company.

TEXT 2

When (1) twins were small and Michela was up to one of (2) tricks, like throwing herself downstairs in (3) baby walker or sticking (4) pea up (5) nostril, so that she had to be taken to (6) emergency room to have it removed with (7) special tweezers, their father would always say to Mattia, (8) firstborn, that his mother's womb was too small for both of them.

TEXT 3

..... (1) Atlantic City began life as(2) staging post on one of(3) transcontinental trails, taken by emigrants en route for(4) California. Soon however it became(5) roaring gold town, where people could make (or lose) their fortunes in(6) day. Few did make a fortune; many found enough(7) gold to keep them happy, but a lot found nothing, or nothing much.
