

1) Label the objects of the Solar System:

2) Read the text. Choose the right words!

- In the future we will ride bikes that can think for themselves!
- 1 They move as fast as a racing car, but will also be really safe.
 - 2 The bike will have a computer brain that will tell it when to slow down and speed up.
 - 3 It will use a computer map, so it will always know where it is
 - 4 and if there are a lot of cars on the roads.
 - 5 We will be able to speak to it, and tell it where to go.
 - 6 If you want to go to the beach, just say, 'Beach, please' and the bike
 - 7 will choose the best and safest way to get there.
 - 8 We will be able to chat to our friends when we are riding using
 - 9 the bike's microphone and webcam. Best of all, the bike can
 - 10 carry two people, so you can go riding with your best friend!
