

2. **Have fun!** Spot the potential hazards (there are 16) in the following picture, and describe them:

Taken from <http://www.napofilm.net/en/napo-for-teachers>

1. Worker on roof is not harnessed.
2. A tool is balancing on roof.
3. A rung is broken the ladder.
4. The ladder is balancing on bricks.
5. The ladder is balancing on a piece of wood.
6. The girl is leaning out of the window.
7. The construction manager is talking on the phone.
8. The gap is not properly marked.
9. Napo is not wearing protective gloves and ear plugs.
10. Sparks are near the flammable liquid.
11. Tool cable is repaired with adhesive tape.
12. The man cutting the hedge is standing on wooden box.
13. The man cutting the hedge is not wearing protective gloves.
14. The rake is on the floor.
15. The bucket is balancing on the window
16. Protective barricades are on the floor.

3. Find out in the text "*How to make a construction site safe*" the following sentences and complete them:

_____ all personnel in work site safety.
_____ equipment to be sure it is working properly.
_____ personnel protective equipment to all

These are all examples of the **imperative form**.

- We can use the **imperative form** to give an **order**, a **warning**, or an **instruction**.
 - To form the **imperative**, use the *infinitive* form of the verb without "to."
 - To make a negative imperative, put "do not" or "don't" in front of the verb, as in, "**Don't touch** that!"
4. What steps should you follow in your workplace in the event of fire, earthquake, accident or chemical spill? Watch the video and put the following steps in order:

Fire:

_____ move quickly away from fire to the agreed place
_____ 1 sound the alarm
_____ dial the emergency number

Earthquake:

_____ count personnel to ensure that everyone is in there
_____ look for shelter until earthquake ends
_____ reunite at the designated assembly point

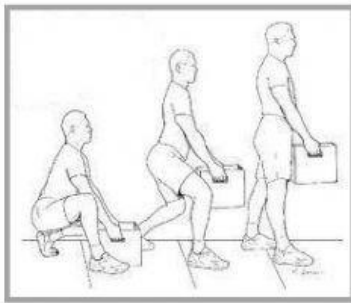

Accident:

_____ if injury is serious, call the ambulance
_____ seek immediate first aid treatment

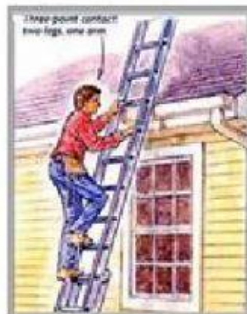

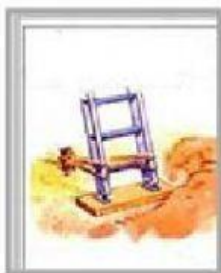

Chemical spill:

_____ evacuate the area
_____ inform the supervisor
_____ clean the area if it is safe
_____ call qualified personnel to clean the area

5. Use the pictures to order the instructions for safe lifting techniques and ladder safety:

- _____ keep your back straight
- 1 _____ test the weight
- _____ hold the object close to your body
- _____ stand up using your leg muscles
- _____ bend your knees

- _____ face the ladder and use both hands
- _____ put the ladder in the right angle
- _____ put the ladder in a firm position

Your turn!

-You are a safety officer and have to evaluate your house potential hazards (use the report worksheet provided below): 1) Describe the potential hazards. 2) Identify possible solutions using the imperative form of the verbs

Safety inspection report

Visit to: _____

Date of report: _____
