

You **should take** warm clothes

You **really need** a windproof coat

You **don't have to** socialise if you
don't want to

Cruise ships **are not allowed** to go
where they like

They **have to** take scientists to
lead the excursions

Only small parties **are permitted**
to land

You've **got to** keep quiet

There's no choice

It's necessary

It's forbidden

It's allowed

It's not necessary

It's a good idea
