## OPEN CLOZE. FCE

In Brazil we take beach volleyball seriously. I am going to tell you		
a tournament that took place last Summer. It was a		
beautiful sunny day and	of far	milies and friends
turned .	There was a great atr	mosphere with picnics
and barbecues. Teams of two girls from up and the		
coast joined in. At first, groups of teams played a set		
each other to see who	go throug	h to the last sixteen.
This first part of the competition was just fun but the knock-out part was		
serious. By the time we got to the semi-finals we realised		
we a chai	nce of winning. We we	on
first set easily but lost the second. In the final one the others got a big		
lead and needed one	point. Their (	Captain was
tense she lost control of a smash and the ball was just out.		
She got really angry with the	e umpire!	we fought
to get level and everyone was shouting encouragement. The		
others just gave up and we	got the points we nee	ded. We
sorry, but	not too sorry, for the o	other girls, after
there's only or	ne winner! Also, we w	ere
exhausted to feel very much	n else.
